PROFESSIONAL SUMMARY

Informatics Engineering student at Universitas Negeri Malang with experience in web development, research administration, organizational coordination, and programming instruction. Skilled in website development using WordPress, HTML, and CSS, as well as technical documentation, teamwork, and project coordination. Experienced in leading administrative activities within a research team and participating in international academic and engineering programs. Eager to contribute technical, organizational, and communication skills to support OIA UM's digital services and international engagement.

EDUCATION

Universitas Negeri Malang 2024 – Present
S1 Teknik Informatika
- GPA: 3.94 / 4.00
- Focus: programming, robotics systems, Internet of Things (IoT), embedded systems, and data analysis

PROFESSIONAL & ORGANIZATIONAL EXPERIENCE

Programming Instructor | **New Primagama** 2026 – Present
- Teach visual programming and text-based programming to elementary school students.

General Secretary | Dewantara Research Team (DRT) 2025 – Present
- Coordinate research administration and inter-division collaboration.
- Support the coordination of research projects and academic competition teams.

LPPM UM (Research and Community Service Institute) 2025 – Present
- Participated as a member in university research initiatives.

Tutor | Vocational High School, Computer and Network Engineering (TKJ) 2024
- Tutoring support to students in the Computer and Network Engineering program.

WEB DEVELOPMENT & RESEARCH PROJECTS

Web & Application Development Projects

Company Profile Website | Spektrum Teknologi
- Developed a company profile website as part of an academic project.

Bakery Website | Eksas Bakes
- Developed a bakery website as part of a class project, focusing on presenting the business and its products.

Mobile Air Quality Monitoring Application
- Worked on a mobile application for monitoring air quality in landfill areas.

Big Data Web Project | Data Research Team
- Currently contributing as a data researcher in a team project involving web-based big data.

Research Grant Awardee | Universitas Negeri Malang
- Smart Weighing for Waste Management System Using IoT Integration to Support Circular Economy.
- Autonomous Environmental Monitoring Robot for Hazardous Gas Detection and Environmental Mitigation.
- AIoT-Based Smart Mobile Robot for Pollution Detection and Landfill Mapping.

Presenter & Co-Author | ISMEE 2025
International Symposium on Material and Electrical Engineering (ISMEE)
- Paper: "Effectiveness of a Multi-Sensor System for Methane and Air Quality Monitoring in Supit Urang Landfill."
- Presented environmental-monitoring research at an international symposium hosted by Universitas Pendidikan Indonesia (UPI).

INTERNATIONAL EXPOSURE

UM-GIE Short Term KOSEN Immersion Program | Kagoshima KOSEN, Japan 2026
- Participated in an international engineering immersion program involving technical learning, laboratory visits, and cross-cultural collaboration.

Global Project-Based Learning (GPBL) | Universiti Teknologi MARA (UiTM), Malaysia 2025
- Participated in an international collaborative engineering program and worked with international students on a LEGO EV3-based robotics project.

AWARDS & ACHIEVEMENTS

- 2nd Place | Qur'an Application Design Competition (MDAQ), MTQ UM 2026
- 3rd Place | Scientific Debate on the Contents of the Qur'an in English, MTQ UM 2026
- 1st Winner | Qur'an Application Design Competition (MDAQ), MTQ UM 2025

- 1st Winner | Statistics Essay Competition (FESMARO), Universitas Negeri Malang 2025
- Honorable Mention | International Green Scientific Competition (IGSC), UNNES 2025
- Gold Medal | IDEA FEST, Universitas Negeri Malang 2024
- 2nd Winner | Robofest Electro Modern Creative (EMC), Politeknik Negeri Malang 2024

TECHNICAL SKILLS

Programming : C/C++, Python, visual programming, robotics programming, Arduino/ESP32, IoT systems, sensor integration, embedded systems, data processing and analysis.
Web & Apps : WordPress, HTML, CSS, Flutter/Dart, Laravel.
Professional : Research administration and coordination, teamwork, public speaking and technical presentations, scientific writing, project management, problem solving.
Languages : Indonesia (Native), English (Professional Working Proficiency), Japanese (Basic)
